

Roof Shampoo: A Roof Cleaning System That Works!

By Dan Lynch

Does your roof look like your lawn? Does it have black streaks that put your driveway to shame? Don't be embarrassed, it's not your fault, and we can help you.

We are E-Z Flow Roof Shampoo, and after years of searching we've finally found a product that actually does what it was intended to do: Clean your roof!

E-Z Flow Roof Shampoo is the concept of Rob Mutsheler, the owner of E-Z Flow Gutters. E-Z Flow has been doing business in the area for over 12 years. It started as a seamless gutter business, and through honesty and hard work, Rob has built it into much more.

Over the course of his career as a contractor, Rob has dealt with many issues that concern homeowners. In the last several years however, a new phenomenon has become more and more prevalent in the Northeast. The discoloration of a roof due to algae,

moss, mold and lichen.

"So many customers have asked me to give them a quote for a new roof over the years" says Mr. Mutsheler. "A good percentage of the time their roof was less than 15 years old and covered in black streaks and patches of green. I would tell them that they didn't need a new roof put on, I just needed to find a product that would clean it for them."

The product he found is Roof Shampoo, and with the help of his two long time friends, Brian Cotcamp and Dan Lynch, he formed E-Z Flow Roof Shampoo.

The black streaks you see on your roof are actually an algae and the green patches are forms of mold, moss and lichens or a combination of all three. There is no single reason that determines when and where they will show up. Changes in climate, pollutants in the air and rain, heavy tree cover, lack of sunlight all contribute to their growth.

The good news is that Roof Shampoo doesn't care how or why your roof looks the way it does, Roof Shampoo just works to make your roof look the way it should.

Roof Shampoo is biodegradable and non-toxic. The process doesn't do any harm or damage to the shingles. We are actually recommended by several of the shingle manufacturers for roof cleanings.

E-Z Flow Roof Shampoo is committed to our customers' satisfaction. Homeowners, commercial properties, churches, condos and townhouses have all been successfully cleaned. There is no job too big for Roof Shampoo to handle.

We know that times are tight for many people right now. Before you make the decision to spend a large sum of money on a new roof you might not need, call us to see if we can help you make your roof look like new for a fraction of the price.
